

|             | Lunedì | Aula | Martedì                                            | Aula      | Mercoledì                                          | Aula      | Giovedì | Aula | Venerdì | Aula |
|-------------|--------|------|----------------------------------------------------|-----------|----------------------------------------------------|-----------|---------|------|---------|------|
| 9:00 10:00  |        |      |                                                    |           | Semantic intelligence for cybersecurity (PARESCHI) | Didattica |         |      |         |      |
| 10:00 11:00 |        |      |                                                    |           | Semantic intelligence for cybersecurity (PARESCHI) | Didattica |         |      |         |      |
| 11:00 12:00 |        |      | Software analytics for cybersecurity (OLIVETO)     | Didattica | Optimization methods for cybersecurity (LATORRE)   | Didattica |         |      |         |      |
| 12:00 13:00 |        |      | Software analytics for cybersecurity (OLIVETO)     | Didattica | Optimization methods for cybersecurity (LATORRE)   | Didattica |         |      |         |      |
|             |        |      |                                                    |           |                                                    |           |         |      |         |      |
| 14:00 15:00 |        |      | Optimization methods for cybersecurity (LATORRE)   | Didattica | Software analytics for cybersecurity (OLIVETO)     | Didattica |         |      |         |      |
| 15:00 16:00 |        |      | Optimization methods for cybersecurity (LATORRE)   | Didattica | Software analytics for cybersecurity (OLIVETO)     | Didattica |         |      |         |      |
| 16:00 17:00 |        |      | Semantic intelligence for cybersecurity (PARESCHI) | Didattica | Software analytics for cybersecurity (OLIVETO)     | Didattica |         |      |         |      |
| 17:00 18:00 |        |      | Semantic intelligence for cybersecurity (PARESCHI) | Didattica |                                                    |           |         |      |         |      |

| INSEGNAMENTO                                                    | DATA DI INIZIO |
|-----------------------------------------------------------------|----------------|
| Software analytics for cybersecurity (Prof. Rocco Oliveto)      | 3-ott          |
| Optimization methods for cybersecurity (Prof. Vittorio Latorre) | 3-ott          |
| Semantic intelligence for cybersecurity (Prof. Remo Pareschi)   | 3-ott          |
